The Cornea Research Foundation of America was founded by Dr. Francis Price in 1988 with a mission to help give people back the use of their eyes.

CRFA has hosted the Focus on Education seminar for 28 years under the dedicated leadership of Dr. Kathy Kelley. We strive to provide CE that is interesting and relevant to our attendees. We are excited to provide you with an opportunity to reconnect with colleagues after a challenging year.

We are dedicated to working together with doctors like you to improve patient care and visual outcomes so that all who look may see.

I look forward to this CE and attend every year. The speakers are always engaging and the topics are diverse, yet relevant to my practice.

Cornea Research Foundation of America
9002 N. Meridian St. Suite 212
Indianapolis, IN 46260
CORNEAL DYSTROPHIES
Ashlyn Lynn, OD & Katelyn Lucas, OD
